

James Young, No Mistake

It's no mistake, that you and I
Are standing right here
It's not by chance, we found our way
Out of the dark

Face to face, in line with the stars
Our feet on the ground
it's no mistake, It's no mistake
We are found

No time seems to have passed
How long does eternity last?
This time...I'm sure

It's no mistake, that you and I
Are standing right here
It's not by chance, we let it all go
It's all in the past
Face to face, suspended in time
We are found
It's no mistake, It's no mistake
Surrender...
