

# James Young, Still Feel Your Love

Out in the early light  
Thinking of all the good friends I have known  
Remembering all of the nights  
We shared our dreams together, how they've grown  
All along and I can still feel your love

Still feel your love, inside  
It's something I just can't hide  
I wish you could know how much you mean to me

She came in like the spring  
The days were lost in pleasure, and the night  
With all the joy she could bring  
Her love was without measure, made me sing  
Hear me sing and I can still feel your love

Still feel your love, inside  
It's something I just can't hide  
I wish I could know just what I mean to

You, my love, have traveled very far  
And I know the journey seems so long  
So long once you know where you belong  
It's all within our reach, and I know  
Yes I know
