

Jamie Foxx, Warm Bed

[Chorus]

Baby if we leave clubbin'
Won't be nothing but lovin'
Cause I got a warm bed, I got a warm bed [2x]

[1st verse]

Damn it's hot
Floor is locked
I can't believe all the ass that you got
Talkin' slick girl might get you got
If you do that again have to arrest you
You telling me don't stop
You must not understand
Why they calling me Foxx
For how long I can stay in the box
I all ready know how I plan to posses you

[B-section]

Kiss you right below the naval then rub you with
oil on your ear
Till you stand up turn around and touch your toes
The next thing
You already know

[Chorus]

Baby if we leave clubbin'
Won't be nothing but lovin'
Cause I got a warm bed, I got a warm bed 2x

[2nd verse]

Better yet enough of the talking
Cause the Patron says it's time to get it poppin'
Bartender swipe the black card I'm walking
Cause she wants to do something like the girls in the film do
She wants to see if the Oscar is the flute or is a nigga really proper
Guaranteed I can tell I got one
That is waiting for the camera to start rolling
So she can let you

Kiss her right below the naval then rub her with
oil on her ear
Till she stand up turn around and touch her toes
The rest she already knows

Baby if we leave clubbin'
Won't be nothing but lovin'
Cause I got a warm bed, I got a warm bed. [2x]
