

# Jamie Foxx, Warm Bed

[Chorus]

Baby if we leave clubbin'  
Won't be nothing but lovin'  
Cause I got a warm bed, I got a warm bed [2x]

[1st verse]

Damn it's hot  
Floor is locked  
I can't believe all the ass that you got  
Talkin' slick girl might get you got  
If you do that again have to arrest you  
You telling me don't stop  
You must not understand  
Why they calling me Foxx  
For how long I can stay in the box  
I all ready know how I plan to posses you

[B-section]

Kiss you right below the naval then rub you with  
oil on your ear  
Till you stand up turn around and touch your toes  
The next thing  
You already know

[Chorus]

Baby if we leave clubbin'  
Won't be nothing but lovin'  
Cause I got a warm bed, I got a warm bed 2x

[2nd verse]

Better yet enough of the talking  
Cause the Patron says it's time to get it poppin'  
Bartender swipe the black card I'm walking  
Cause she wants to do something like the girls in the film do  
She wants to see if the Oscar is the flute or is a nigga really proper  
Guaranteed I can tell I got one  
That is waiting for the camera to start rolling  
So she can let you

Kiss her right below the naval then rub her with  
oil on her ear  
Till she stand up turn around and touch her toes  
The rest she already knows

Baby if we leave clubbin'  
Won't be nothing but lovin'  
Cause I got a warm bed, I got a warm bed. [2x]
