

Jamie Lidell, Green Light

It's only a trick
If you make it a trick
And you're wonderin how to get yourself outta this one
Outta this one
Outta this one

It's only a good thing
If you make it a good thing
Once again you're just foolin yourself
Outta this one
Outta this one
Outta this one

All you haveta do is
Just give yourself the green light
Just give yourself the green light

It's only a kiss
If you make it a kiss
So why you wanna fake your way
Outta this one

Well, it's only a sin
If you make it a sin
We all guilty so why not give in
To this one
To this one
To this one

All you have to do is
Just give yourself the green light
Just give yourself the green light

Give yourself the green light
Whoa
Give yourself the green light
Oh
Just give yourself the green light
Whoa
Give yourself the green light
Oh

Well, you're spinning your wheels
But you're goin nowhere
Keep on turnin
But there's no turnin back
Outta this one
Outta this one
Outta this one

And you don't have to put on the brakes
When you're already there
Cause there's this time to take yourself outta this one
Outta this one
Outta this one

Yeah and all you have to do is
Just give yourself the green light
Just give yourself the green light
Give yourself the green light
Just give yourself the green light
Give yourself the green light
Give yourself the green light
