

Jamie Lidell, When I Come Back Around

long days and lonely nights
makes the morning seem so bright
but when my feet they hit the ground
I know that I'm safe and sound
my foolish self don't have to be
more than just a memory
cuz when I come on back around
it's the new me coming thought I've found

when I come back around
wake up and look all around
when I come back around
wake up and look all around
when I come back around
wake up and look all around
waiting for you to come on back
when I come back around
wake up and look all around

don't ask me why I do that stuff
take it too far it's never enough
spiraling self loathing styles
hanging out
with audiophiles
but when I start to wake
from the hypnogagic state
feel that I can see the light
come on up from day to night

when I come back around
wake up and look all around
when I come back around
wake up and look all around
when I come back around
wake up and look all around
waiting for you to come on back
when I come back around
wake up and look all around

but when I start to wake
from the hypnogagic state
feel that I can see the light
come on up from day to night

when I come back around
wake up and look all around
when I come back around
wake up and look all around
when I come back around
wake up and look all around
