

Jamie Myerson, Rescue Me

I realize its only been a few short years gone by
But still i think, how far away i am
And tears will fill my eyes

I hope it wont be too long now before i lose my mind
A time for us, soon will come
And then you will, then you will be mine

Rescue me
From the life that
Keeps me from you

Rescue me
So i can be
Closer to you

I knew when i saw you
That we would fall in love
And now, now that i have you
We'll live together as one
And i promise you, my baby
That i won't leave you, no never
I will stay in your arms
Holding each other tight
As long as you can, you can
Rescue me
From the life that
Keeps me from you

Rescue me
So i can be
Closer to you
