

# Jamie T, Calm Down Dearest

Big bang, where we going what we doin this night  
I feel drunk already maybe drink got spiked  
But more likely of the like that I'm just a lightweight  
Well I don't care man I've been drunk forever  
I've sedated hatred I've sedated pages  
I've sedated worthwhile cages stages and all of my rage  
This is a good time to start dancing to this song man  
A good one dj play the record on man

So where be Joey get us a drink a dimp of whiskey  
And look at the lady she be shady but we maybe  
What you doing where you going to there after  
She said get the fuck out man you seem to be so plastered  
And we be all the night drinking it staring at the girls alike  
It's all good man what goes on drink your can  
Walking it drunk down the Strand  
And talk about how you missed the whole club queue  
Well who the fuck are you

Chorus x2  
Heavy it's on my mind  
Say you feel just fine  
Racking stacking lines  
I said calm down dearest

I remember shooting shit down the old alleyways  
Talking tragedies of music like old Holiday  
I remember what we doing and I don't remember now  
It's the past it's the future  
I don't know how to carry on though the rights and wrongs  
Kick it like we know the songs  
Already before we rock steady down and on the dancefloor  
Well I don't get no fights when I get angry drunk  
I sit down in the corner and I sulk my fucking socks off

So who the fuck are we? Just the boys in the city  
It's all been done before and we do it again so  
We'll see you later alligators  
We'll be back I'm sure next week sitting in the bar you know  
So good bye bye  
We'll never try never to die but  
We're so young we don't understand if we canna fly  
So we're here now but we will be gone soon  
But not today not tomorrow not the next tune

Chorus x2
