

# Jamiroquai, Butterfly

Little butterfly come back to me  
Everything that I want written on your face  
I want it, I want it [x2]

So take me where you want to  
It's your love that I chase  
I want it, I want it [x2]

Now you got something  
I want it, I want it  
So beautiful  
I want it, I want it  
And the way you move me baby  
Its like no other girl  
I want it, I want it [x2]

Butterfly that came and butterfly in June  
So colour in my wings  
And let me hold your hand  
I could be the sun and you could be my moon  
But all you ever say is catch me if you can  
Feel like a butterfly  
Searching in the summer sky  
A perfect love so hard to find

Little butterfly come back to me [x4]

Honey you pushing a condition  
But I don't mind  
I want it, I want it [x2]

I think you're my addiction  
But that's alright  
I want it, I want it  
That's alright  
I want it, I want it  
You've got to slow down  
I can't keep up with you  
I want it, I want it  
No no no All the other butterflies  
They don't love like we do  
I want it, I want it [x2]

I feel like I'm a butterfly in June  
So colour in my wings and let me hold your hand  
I could be the sun and you could be my moon  
But all you ever say is catch me if you can  
Feels like a butterfly  
Searching in the summer sky  
A perfect love so hard to find  
Little butterfly come back to me [x4]
