

Jamiroquai, Talulah

She's gone away
Flying up on a jet plane
Told me she won't be back again
And Talulah, Talulah is her name
But I've got this thing
Girl I wanted to say to you
Talulah I'm still missing you
Baby can you stop that plane
Turn it around
I still love you babe
Tell the captain that I'm to blame
I'm to blame
This ink stained with tears
All these letters from my heavy heart
This is what I always feared
That these sparks would fly
And we would break apart
But I've got this thing
Girl I wanted to say to you
Talulah I'm still missing you, I miss you so
Baby can you stop that plane
Turn it around
I still love you babe
Tell the captain that I'm to blame, I'm to blame
You've gotta stop that plane
Turn it around, turn it around
You gotta stop
You gotta stop it now and turn it around
You're my magic star
Don't you fly too far from me
From me, from me
Can't you see
There's a hole in my soul
And I'm losing control
And it's not too late for you to be my magic star
Come and see me baby
So solitaire
I think of your midnight hair
And it's still the same
Cos you're on my brain
Gotta stop that plane
Come and see me baby
She's, oooh gone away
Flying up on a jet plane
Told me she won't be back again
And Talulah, Talulah is her name
I'm curled up tight
So alone I can't sleep at night
Return to sender, that's me tonight
I really think I'm lost in space
I Shut my eyes I still see your face
With your touch and your soft embrace
You've gotta stop that plane
Now there's a hole in my soul
And I'm losing control
I know you're my magic star
But you've gone away and flown too far this time
Stop that plane... turn it around...
