

# Jamiroquai, Talullah

She's gone away  
Flying out on a jet plane  
Told me, she won't be back again  
And Talullah is her name

[Chorus:]  
Well, I got this thing, girl  
I wanted to say to you  
Talullah, I'm still missing you  
Baby, can't you stop that plane  
Turn it around, I still love you, baby  
Tell the captain I'm to blame

There's ink stained with tears  
All these letters from my heavy heart  
This is what I always feared  
Sparks would fly and we would break apart

[Chorus]

Gotta stop that plane  
Turn it around  
Stop that plane  
And just turn it around  
Stop that plane  
And turn it around for me

There's a hole in my soul  
And I'm losing control  
And it's not too late for me to take  
This love somewhere else, baby

Can't you see my mind  
I need you all the time  
And it's not too late for you to turn  
That plane around, come see me, baby

She's gone away  
Flying out on a jet plane  
Told me, she won't be back again  
And Talullah is her name

I curl up tight  
So alone, I can't sleep at night  
Return to sender, that's me tonight  
Stop that plane, turn it around  
I still love you, babe  
Tell the captain I'm to blame  
I'm to blame, I'm to blame

[Ad-libs to end]
