

Jamiroquai, Whatever It Is, I Just Can

If I pick it up, can I put it down
Whatever it is I just cant stop
For only 20 seconds at a time its all mine
I got too much pressure
Got me under its thumb
And its no fun you can lose
Now I got a choice but I cant choose
Insistent as you are
Is no guarantee that youll go far
Rock steady if you can
But Ive never been a steady man
People wanna shoot you down
If you cant swim then you will drown
In sorrow
Cant get no medical attention till tomorrow
Sadlands are where I live
But thats none of your business
You keep asking and soon enough
The kids gonna have to get rough
Maybe Im a speed king
Push with the foot and Im smiling
I can glide on the love inside
And there was you thinking that my hands were tied
All along I saw you hoping
I would slip and Im not joking
The evidence in these events
Is still your lack of common sense
Did you really think that I would sink
Because I like another drink
Have to get up to get down
The remedy is in the sound
Absurdity of your suggestion
Leaves me asking just one question
If you are my friend today?
Why do you wanna hear me say?
If I pick it up can I put it down
Whatever it is I just cant stop
