

Jan Howard, Can You Feel It

There's a feeling deep inside me that I've never felt before
And I feel it when I see you and when I touch you I feel it even more
And I wonder when I'm with you do you feel the way I do
When you put your arms around me do you get that feeling too
Can you feel it deep inside can you feel it in your heart
Can you feel it deep inside if you feel it then we can start

We can put our hearts together and there's none a thing to fear
If you got that lovin' feeling then the time for us is here
Can you feel it deep inside...

So just take a look around you and then tell me what you see
Is the world a little brighter and does the sun seem to shine for you and me
Can you feel it deep inside...
Can you feel it deep inside...
