

Jan Howard, I've Got Feelings Too

Late at night when the lights are bright you lighten my company
We make the rounds all over town you're not ashamed of me
The next day you'll just turn away and break my heart in two
To you I'm just a nighttime girl but I've got feelings too

[piano - steel]

You take me to a place where you'll know your friends won't appear
It hurts me so but still I go for my love is sincere
They'll never know I love you so it might bring shame to you
I hurry home and cry alone cause I've got feelings too
I know that you won't ever love me like I love you
To you I'm just a nighttime girl but I've got feelings too
