

# Jan Howard, Rock Me Back To Little Rock

I was young when I left you and daddy there was a world outside I had to see  
Mama I've sure been a lot of places but Little Rock still looks the best to me  
Oh rock me back to Little Rock mama rock me let me be there in my dreams awhile  
Where the men don't try to take advantage of every woman who smiles  
Sing me a little rock-a-bye-baby just the way you used to do  
Mama this old world outside does hurt me so rock me back to Little Rock with you  
[ guitar ]  
I couldn't wait to get away from Little Rock  
For I thought Little Rock was a little square  
But if I ever save enough money I'll swing it right on back and settle there  
Oh rock me back to Little Rock...
