

Jan Howard, Together We're One

What good is my life if I don't have you cause all of my dreams are built around you
I'd be like Miami without any sun
Without you I'm nothing without you I'm nothing together we're one
The roar of Niagara when you are near turns into a drip when you disappear
Imagine a party without any fun
Without you I'm nothing without you I'm nothing together we're one
When I'm happy oh it tickles me too
When I'm crying you know it hurts me through and through
It takes two hands to make one hold I belong to you baby body and soul
If you ever leave me and you don't come back
I'd be like a train without a railroad track
Just like a river with a no place to run
Without you I'm nothing without you I'm nothing together we're one
When I'm happy oh it tickles me too...
