

# Jan Howard, You And Your Sweet Love

I wish you only knew all the days I've made it through  
Because of you and your sweet love  
I wish that I could count the times peace and comfort filled my mind  
Because of you and your sweet love  
You're what keeps me going the sun that lights my sky  
The rose that blooms in winter the rain that cools July  
Never try to tell me that it wasn't God above that sent me you and your sweet love  
[ steel ]  
Almost every night it seems you come walking through my dreams  
Precious you and your sweet love  
And tonight though we're apart there's a fullness in my heart  
Thanks to you and your sweet love  
You're the rock I cling to the star I wish upon  
The water in my desert the anchor in life's storm  
Never try to tell me that it wasn't God above that sent me you and your sweet love  
He sent me you and your sweet love
