

# Jane, Doesn't Mean That Much

Doesn't Mean That Much

Do you think that it's alright  
Do you like to see me smile  
Do you think I'm the life and soul  
Or can you see the child

Do you think it's easier  
There's no cloud immune to rain  
Well - I'm not ashamed cos nothing ever stays the same  
You have to bend the rules to stay in the game

Well you may the time  
And you may devotion  
I may have the feeling  
But I just haven't got the emotion

You can quote me words of love  
From passion's poetry  
But I must be forgiven cos it just don't have the rythm  
So it doesn't mean that much to me

CHORUS

It doesn't mean that much to me (x 4)

Follow on  
Keeping the vision in sight  
We can see it on the darkest night ooh  
We are strong  
We are belong  
And we know we are right  
Not gonna catch us now  
Not gonna catch us now

Falling now but rising fast  
Like a shooting star I see  
Take a piece of my world If you want  
To figure in your fantasy

Only time and peace of mind  
Can put you put you back on the right track  
So give it all you got  
Give it your best shot  
Otherwise how are you gonna know  
That

CHORUS

It doesn't mean that much to me (x 4)

Follow on  
Keeping the vision in sight  
We can see it on the darkest night ooh  
We are strong  
We are belong  
And we know we are right  
Not gonna catch us now  
Not gonna catch us now
