

# Janet, Don't Mess Up This Good Thing

Don't mess up this good thing  
Don't mess up this good thing  
Don't mess up this good thing  
Don't mess up this good thing

Well, I think you've had a long time  
To get your act together  
It's your move and I hope you do the right thing  
You know I never wanna lose you  
But you must learn to play the game by the rules  
Show me how much my love means to you

Don't mess up this good thing  
Don't mess up this good thing (what we have together)  
Don't mess up, no baby

Well, forever may be  
More time than anyone can offer  
But all my time is spent in your corner  
Heaven knows how much I love you  
But if you think I can watch you play on me and understand it  
Baby, you're taking far too much for granted

Don't mess up this good thing  
Don't mess up this good thing (what we have together)  
Don't mess up this good thing  
Don't mess up this good thing (if you still believe)  
Don't mess up this good thing  
Don't mess up, baby (no one can love you better)  
Don't mess up this good thing  
Don't mess up this good thing

Got to find the right words to make you see  
That you and I were meant to be

Don't mess up this good thing  
Don't mess it up  
Don't mess up this good thing

Well, forever may be  
More time than anyone can offer  
But all my time is spent in your corner  
Heaven knows how much I love you  
But if you think I can watch you play on me and understand it  
Baby, you're taking far too much for granted

Don't mess up this good thing  
Don't mess up this good thing (what we have together)  
Don't mess up this good thing  
Don't mess up this good thing (if you still believe)  
Don't mess up this good thing (ooh don't mess it up baby)  
Don't mess up this good thing (no one can love you better)  
Don't mess up this good thing (sho' don't mess it up)  
Don't mess up this good thing (I've got what you need)  
Don't mess up this good thing  
Don't mess up this good thing (what we've got together)  
Don't mess up this good thing
