

# Janet Jackson, 2nite

Close the door and dim the lights  
Make me feel what I wanna feel tonight  
I like control so let me ride  
If youre strong hold on and forget the time  
Aint you curious dont you wanna know (dont you wanna know, wanna know)  
Just how far you think my love can go  
Something in the air tonight  
I dont want to be alone  
I need you to keep me warm  
Baby reach out touch me  
Something in the air has got me feeling like Im ready tonight  
Boy the feelings so severe  
I want you to take me there  
Baby reach out and touch me  
Something in the air has got me feeling like I want it tonight  
My bodys here, Im soaking wet  
I wanna give you something that you wont forget  
Your appetite is all for me  
Maybe you can have it all, well just wait and see  
Aint you curious dont you wanna know (dont you wanna know, wanna know)  
Just how far you think my love can go  
Boy youre what I want give it all you got please dont ever stop  
Doin that thing to me, keep doin that thing to me  
This is what you like dont resist the fight do it all night  
This is what I want  
We both know that the time is so right  
Boy I need you so much please dont leave me alone tonight  
Come on
