

# Janet Jackson, Lonely

Feeling so alone and deserted  
With people standing all around you  
Should I trust someone  
Should I stay off to myself  
Alone with no one to talk to  
It's such a helpless feeling

So anytime you feel the need  
Call me when you're lonely  
Cause everybody needs a friend  
To be there when they're lonely

So don't isolate yourself  
Every time that I come around  
A person all alone  
Is an unhappy one  
We need somebody near to love us  
Someone who cares  
Living life all by yourselves  
Impossible to do and I'll be there for you  
Anytime you feel the need  
Call me when you're lonely  
Cause everybody needs a friend  
And I'll be yours if you're lonely  
(And if you're all alone)  
If you're all alone  
And a friend you need  
Like a river flows  
You hurt, I'll bleed  
If you can trust in me  
We can find a way  
Take away the pain  
Time heals all things  
Even a lonely state of mind  
Cause happiness is oh so hard to find  
If you're lonely I will be there

So anytime you feel the need  
Call me when you're lonely  
Cause everybody needs a friend  
To be there when they're lonely
