Janet Jackson, Lonely

Feeling so alone and deserted With people standing all around you Should I trust someone Should I stay off to myself Alone with no one to talk to It's such a helpless feeling

So anytime you feel the need Call me when you're lonely Cause everybody needs a friend To be there when they're lonely

So don't isolate yourself Every time that I come around A person all alone Is an unhappy one We need somebody near to love us Someone who cares Living life all by yourselves Impossible to do and I'll be there for you Anytime you feel the need Call me when you're lonely Cause everybody needs a friend And I'll be yours if you're lonely (And if you're all alone) If you're all alone And a friend you need Like a river flows You hurt, I'll bleed If you can trust in me We can find a way Take away the pain Time heals all things Even a lonely state of mind Cause happiness is oh so hard to find If you're lonely I will be there

So anytime you feel the need Call me when you're lonely Cause everybody needs a friend To be there when they're lonely
