

Jann Arden, In Your Keeping

tell me i will never die
take away my pain
rock me gently in your arms
say that i remain in your keeping
brush the hair out from my eyes
read me a good story
kiss my finger tips good night
say that i can stay in your company
and i know this much is true
i have lived inside of you
you have always seen me through
while i am peacefully sleeping
you have always been my friend
i can see your beauty shining
i will love you till the end
long will i remain in your keeping
and i know this much is true
i have lived inside of you
you have always seen me through
while i am peacefully sleeping
while i am peacefully sleeping
