## Jann Arden, Leave Me Now

Leave me now, don't hang around Just close the door and leave the key under the plant outside The one you bought me years ago look how it's grown Go away, you cannot stay here Take your heart off of your sleeve and let me catch my breath I hope you haven't left a thing It's hard enough to be here without your love It's hard enough Move along, you don't belong here Wipe yourself off of my floor and let me get some sleep I cannot keep you in my heart It's hard enough to be here without your to be here without your to be here without your love It's hard enough It's hard enough Leave me now, don't hang around Leave me now, don't hang around
