

Jann Arden, The Right Road Home

Show me the way and I'll go
Give me a sign so I'll know
Put me back on the right road home
Right road home

Leave a light at the door
Keep a boat by the shore
Send a message with your heart
Let me sleep in your dreams like a sweet memory
Let the loneliness be gone

Show me the way and I'll go
Give me a sign so I'll know
Put me back on the right road home
Right road home

I can picture us now
Squinting into the sun
Holding on to every moment
Hand in hand in a field and it almost seems real
I could swear I heard you calling

Show me the way and I'll go
Give me a sign so I'll know
Put me back on the right road home
Right road home
The right road home
The right road home
The right road home
The right road home

Leave a light at the door
Keep a boat by the shore
Send a message with your heart
