

# Jann, Kisskiss

I know I'm usually quite a romantic  
But it can be so anticlimactic  
I tend to overthink what it might be  
Lose interest before things get exciting  
This time It's different and I think that I like it  
You have me on my knees and I like it  
I keep you on your toes and you like it  
The satisfaction on your face  
I like it when you like it

Let's not make it sentimental  
We both know there's no potential  
It's just purely beneficial  
You say 'just don't be too gentle'

Kiss kiss  
Yes but not my lips lips  
Nice and deep I missed it  
I can see you missed it too  
Kiss kiss  
Mark it with your lipstick  
Blow and make a wish I'll  
Come and make your wish come true

You know I usually try to be careful  
I'm always so polite and respectful  
But I know that this is not what you're into  
If you don't want me to I don't have to  
If there's something you would like to mention  
All of you has my attention  
Ask before I lose my senses  
Any sense of comprehension

Kiss kiss  
Yes but not my lips lips  
Nice and deep I missed it  
I can see you missed it too  
Kiss kiss  
Mark it with your lipstick  
Blow and make a wish I'll  
Come and make your wish come true
