

# Jann, what do you want from me?

Go on look at it  
Which part of me is the one you need  
Which part of me is the one you keep  
Inside your head when you fall asleep  
The One that you cry about  
The one you touch even if it's not allowed  
You don't care, cuz you paid and you paid a lot  
It wasn't part of the deal but you're sure it was  
And I got used to it  
I treat my pain like a currency  
My body goes numb when you're touching it  
Sacrifice good for economy  
My economy  
My ego  
And me, we don't agree on  
What's good for me  
It's lethal  
He says it's for the people  
I think that I should  
Stay off the radar  
It's all for the better  
Head under the water  
It won't even matter  
Want from me  
What do you want you from me  
When you can't have me  
Then you come for me  
What you see  
Didn't come for free  
I don't owe you any  
Reciprocity  
Keep listening  
Half of the things you're imagining  
All your delusions, fantasies  
Aren't even close to reality  
That part of me  
The one you're so highly admiring  
The one you're obsessed with and everything  
Is gone I don't need you to pity me  
I'm way better now  
I don't need you to clap don't need you to bow  
Don't tell me what you want to do to me and how  
It's something I can do without  
I do it for my ego  
We don't always agree on  
What's good for me  
But beyond our differences  
We still know  
The part of me  
I Made for your pleasure  
Was made under pressure  
And once I grow older  
It won't even matter  
Want from me  
What do you want you from me  
When you can't have me  
Then you come for me  
What you see  
Didn't come for free I don't owe you any  
Reciprocity
