

# Janna Long, Call

If your shine is fading  
If your light seems dim  
You've got nothing left to lose  
And you've got nothing left to win  
Call

If you're close to broken  
With your last dreams spent  
If you're searching for your faith  
And wonderin' where in the world it went

## CHORUS:

Call, call  
From the center of your soul  
Call, call  
On the holy name of the Lord  
Call, call  
He'll catch you when you fall  
He will carry you through it all  
Call

Oh, when you're in the valley of your deepest tears  
If you think you're all alone  
And love has surely up and disappeared  
Oh, when you're out of answers  
When you're in too deep  
When you see the road that you must take  
But you can't find the strength to move your feet  
Go on and call

## CHORUS

For He is near to all who call Him  
And He hears their cry  
He watches over those who love Him  
He will save us all
