

Janna Long, Somebody Loves You

I see you standin' there all alone
Feelin' like all hope is gone
You cry yourself to sleep every night
Nothin' ever turns out right

Well, I'd like to encourage you
Just to let you know you'll get through
There's a light on you from above
Oh, don't you know...

CHORUS:
Somebody sees
Somebody knows
Somebody sits high and looks low
Somebody's watching
You're not alone
Somebody loves you so

Well, I know you don't understand
Just how you fit into the plan
Life has been so unfair
Send you problems too hard to bear

Well, I'd like to encourage you
Just to let you know you'll get through
You gotta stand tall and be strong
Oh, don't you know...

CHORUS

Don't you know somebody loves you
Don't you, don't you dare give up the fight
Just reach deep down inside you
Oh, my God is there to guide you
And when you, you really need a friend
Don't hesitate to call Him
He will be there to answer your prayer
