

Janove Ottesen, Down To The Vertigans

I'm heading down to the Vertigans
I'll pick you up, when I come by
He said, this season has been extraordinary
But, there's no particular reason why
I'm heading down to the Vertigans
He said, he sure could use a hand
It's a good time, to set the pigeons free
These are the good times for the whole industry
As long as the rain keeps pournig,
you'll have your fields of green
And as long as the sun keeps shining,
on your way
Keep your engines running, once you start
Keep your radio tuned to the national charts
You listen to it, whether you like it or not
When you stroll down to the Vertigans
So, we're heading down to the Vertigans
And of course, we should've been there by now
But, the local club is doing so fine this year
I say we drop in, and give our support
