

Jape, Floating

We took our first pill when the music was shit
I said fuck dancing all night but then that's just what we did

It felt like floating
It felt like floating

your body was warm when I laid by your side
I said I'm glad I have found you and I'm glad we're alive

It feels like floating
It seems like floating
It feels like floating

We laid by a river, we looked at the stars
I said how tiny we are? Girl how tiny we are?

It feels like floating
It feels like floating
It feels like floating

A lifetime is short and death is so long
I don't believe in no heaven I just hope that I'm wrong

I hope we're floating
I hope we're floating

There's much in the world I don't understand
It just makes much more sense with my hand in your hand

It feels like floating
It feels like floating
It feels like floating
It feels like floating
It feels like floating
It feels like
ah ah ah ah ah ah ah ah
ah ah ah ah ah ah ah ah
ah ah ah ah ah ah ah ah
ah ah ah ah ah ah ah ah
