

Jaromir Nohavica, Gaudeamus igitur (ENG)

The maids went ahead
Completely barefooted
bearing Deaths effigy
The boys came after
With concealed flowers
and caps tilted slightly

Ref:

The geldings neighed behind their bars
The raven crowed the dawn hour
Behind that little barn of ours
Gaudeamus igitur
And when the wind had climbed
Death looked like a pine
completely left behind
It rattled through the trees
winter was unkind
the land lay in the freeze

Ref:

The geldings neighed behind their bars
The raven crowed the dawn hour
Behind that little barn of ours
Gaudeamus igitur
A procession of spring
Dressed as a nursling
that was slowing shifting
Their mouths were steaming
And the ice was jingling
Twas the Day of Three Kings

Ref:

The geldings neighed behind their bars
The raven crowed the dawn hour
Behind that little barn of ours
Gaudeamus igitur
The maids and boys fled
The ice patches were cold
but their hopes couldnt freeze
Two bells sounded
One was for the constables
The other for the theives

Ref:

The geldings neighed behind their bars
The raven crowed the dawn hour
Behind that little barn of ours
Gaudeamus igitur
