

Jasmine Thompson, Someone's Somebody

I can't control you
Even though I went to
And you know it's torture
Cause you bought someone new
And I can't ignore you
Even though I'm trying to
I might need a doctor
So nervous next to you

Hell and hello
Those 2 words
Are so close
Baby, can you tell
The I feel pain?
I can't let go

I won't let you be Someone's Somebody
Can't see you with no one else
No, nobody
Someone's Somebody
Should tell you that you can't leave this party with her

And I got some feelings
While you're holding hands right now
Know that I was healing
Till you both came around
Don't you better watch your mouth
Cause it's too soon
Way too soon to say it

Hell and hello
Those 2 words
Are so close
Baby, can you tell
The I feel pain?
I can't let go

I won't let you be Someone's Somebody
Can't see you with no one else
No, nobody
Someone's Somebody
Should tell you that you can't leave this party with her
