Jason Aldean, I Use What I Got

Nobody ever thought I'd make it in this town
They all said i should leave my truck, pack, and turn right back around
They said I didn't have what it takes
I needed money and a pretty face
But I just look at them and say...
I use what I got
Take what I get
Until I ain't got nothin' left
Then I give it some more
Keep on climbing up that mountain
Keep truckin along, work up a sweat
Pass every no, after no, after no, till i get a yes
I don't worry about what i've done
I use what I got, yeah
I still got big dreams and a strong heart
I got a lot of real good friends who helped me get this far
I still got a lot of miles to go
It's a winding, uphill road
And I'll get there the only way i know
I use what I got
Take what I get
Until I ain't got nothin left
Then I give it some more
Keep on climbin' up that mountain
Keep truckin' along, work up a sweat
Pass every no, after no, after no, till I get a yes
I don't worry about what I'm not
I use what I got, yeah
Keep on rollin' along, doin' my best
Past every no after no after no til i get a yes
I don't worry about what i'm not
No, no, I don't worry about what I'm not
I use what i got, yeah
