

Jason Derulo, LAY, NCT 127, Let's Shut Up & Da

Your body gives me motivation
Your touch is all that's on my mind
Sweat on you precipitating
You feel me rising from behind

give it to me /2x
come let your body show me
give it to me /2x
what your lips want to say

all my London girl come and show me something
all my LA girls come and show me something
Ethiopian girls come and show me something
come and show me something
come on /2x
Jamaican girl want to blow it down
my Asian girl want to work it out
turn around don't talk just hush your mouth
show me something /2x

shut up and dance
shut up and dance

roll it and light it for me
ice my corona
no need for conversation
love your persona

in the Bentley doing different routes
late night
eat it like in and out
take to you can bring a friend around
Tupac bitch I get around , get around

my London girl come and show me something
all my LA girls come and show me something
Ethiopian girls come and show me something
come and show me something
come on /2x
Jamaican girl want to blow it down
my Asian girl want to work it out
turn around don't talk just hush your mouth
show me something /2x

shut up and dance
show me something
shut up and dance
show me something
