

Jason Mraz, Feel Good Too

You, you are a wanderer
When you walk into a room
It's like we've landed on the moon

You - you are a dreamer
When you walk into a space
You make believers

If it makes you feel good
If you're excited
If you really want it
And you cannot hide it
If it makes you feel good
Then go on let it
And go on get it
'Cause if it makes you feel good
I feel good too
I feel good too
Feel Good

You, you're a bit of mystery
And I'm still buzzing from whatever it was you did to me
Yea, You. You got moxie.
And I love it when you're dancing right beside me

And If it makes you feel good
If you're excited
And you really want it
And you can't deny it
If it makes you feel good
Then go on let it
Go on get it
If it makes you feel good

I feel good too
I feel good too
I feel good, too

You're often misunderstood
Some people just wish they could
Do what they want
F'ing the shoulds
Just go enjoy your life
Stop trying to get it right
I'm celebrating my time that's remaining
Working or playing
I'm spending my savings
Like we're on holiday

Do the things that make you feel good
We're on holiday
Do the things that make you feel good
(Feel Good)

If it makes you happy
It makes me high
If it makes you laugh
Then it makes me smile
Do what you want and don't be shy
You make me feel alive
You're an inspiration
A work of art
Congratulations
You won my heart

Do what you love and everybody feels it
I feel good too

Do what you love and everybody feels it
Feel good
Feel good
Feel, feel good
Feel, feel good
