

Jason Upton, Dying Star

You've got your best man on the front side
You always show your best side
And evil's always on the other side
You say this is your strategy
But son I hope you take it from me
You look just like your enemy
You're full of pride
We better trash our idols if we want to be
In the army of the Lord
And the greatest idol is you and me,
We better get on the threshing floor
When will we learn that God's strategy
Is giving glory to the Lord?
We better trash our idols if we want to be
In the army of the Lord

Star how beautiful you shine
You shine more beautiful than mine
You shine from sea to shining sea
World-wide is your strategy
But shining star I hope you see
If the whole wide world is staring straight at you
They can't see me...
