## Jason Upton, Dying Star

You've got your best man on the front side You always show your best side And evil's always on the other side You say this is your strategy But son I hope you take it from me You look just like your enemy You're full of pride We better trash our idols if we want to be In the army of the Lord And the greatest idol is you and me, We better get on the threshing floor When will we learn that God's strategy Is giving glory to the Lord? We better trash our idols if we want to be In the army of the Lord

Star how beautiful you shine
You shine more beautiful than mine
You shine from sea to shining sea
World-wide is your strategy
But shinning star I hope you see
If the whole wide world is staring straight at you
They can't see me...
