

# Jason Upton, Great River Road

I was born where the rivers run  
Native blood runs through my veins  
I was born where the eagles come  
Waiting till the winter fades

I was born an endangered son  
I was spared by a mothers dream  
I was saved by the power of love  
I was snatched from the fire of greed

Great river road where justice rolled  
Let it roll, let it roll down  
Great river road where healing flowed  
Let it flow, let it flow now

I was born to an orphaned son  
I was seed from a broken life  
I was just like the other ones  
Waiting on the other side

I was born because freedom won  
Mother sent me down the stream  
I was saved by the power of love  
I was snatched from the fire of greed
