

# Jason Upton, Just Like You

I tried to walk on the water and found myself under the sea  
So with water up my nose I felt your hand come close to save me  
I've tried to cast out the demons I've gone to the darkest of regions  
When fear has me shaking you suddenly break in to save me

I desire  
To be like you  
Like any son or daughter  
I want to be like my Father  
I desire to be like you  
You promised to never forsake me  
So I'll risk it all if you'll make me like You

You stand beside me just waiting while I try to go it alone  
Smiling You say son come here won't you let me just help you  
But frustrated I try to make it cause I've just got something to prove  
Not knowing it is my weakness that perfects your power
