

# Jason Upton, When It Thunders

Baby look up theres our star in the middle of the sky  
Shining where we are to comfort you and I  
While I hold you in the dark I hope you see the light  
And the passion of my heart in this simple lullaby

Daddy dont sleep daddy dont slumber  
I dont wonder when it thunders  
If Im safe in daddys arms (repeat)

Daddy look up theres our star I hear you say to me  
Something deep inside says I never want to leave  
So I need for you to know whenever I go  
God is in control and you are in His arms
