

Jax Jones, Me and My Guitar - feat. Fireboy DML

It's just me and my 6 string
Throw it all in a car
When you're starting from nothing
Anywhere but here is far
Cos I'm caught in a dead end
I been cut up with doubt
But I'm bleeding ambition
Cos that's my only way

Out of my hometown
I could show you round
Cos I'm still proud of where I start
Now I understand
My life's in my hands,
I've only got one plan
Just me and my guitar

Pack up my dreams and go
Go somewhere far from home
I'm gonna be a star
Just me and my guitar

Get out this neighbourhood
Big dreams of Hollywood
I know that I'll go far
Just me and my guitar

Yeah yeah yeah, yeah yeah yeah
I know that I'll go far
Just me and my guitar
Yeah yeah yeah, yeah yeah yeah
I know that I'll go far
Just me and my guitar

I'm on my way
There's nothing that can stop me now
Hear my music playing loud.
Nothing has changed,
It's still me and my guitar
I'm still singing from my heart.
Left my Mum and Dad,
Dreams were all I had,
Now the boy don turn star
Now I understand,
My life's in my hands
I only got one plan,
Just me and my guitar

Pack up my dreams and go
Go somewhere far from home
I'm gonna be a star
Just me and my guitar
Get out this neighbourhood
Big dreams of Hollywood
I know that I'll go far

Just me and my guitar
Yeah yeah yeah, yeah yeah yeah
I know that I'll go far
Just me and my guitar
Yeah yeah , yeah yeah yeah
I know that I'll go far
Just me and my guitar.
