

Jay Delano, Baby

When I looke into your eyes, you've got me feenin'
Girl I almost loose my mind, baby I can not deny no...
Thw way you make me feel deep down inside
Why don't we just spread our wings and fly, far away from here into sky
Let's not worry 'bout a thing and rise
Just close your eyes...
All I wanna say is...
Baby... don't you know I'm crazy in love with you
So let me be the one to do what you want me to
Ever since you're in my life
Everything chenged, now I'm yours and you are mine
I will keep you in my heart
An I pray each day that we won't be apart
Why don't we just spread our wings and fly, far away from here into sky
Let's not worry 'bout a thing and rise
Just close your eyes...
Now that I've found a love so pure
I'll never let you go, you're the only one that I adore
I never felt this way before...
