

Jay Delano, Intro

It's been long time since I felt like this
It's all for real baby, It's all for real
Baby baby baby baby, don't you know you're one of a kind
when I wake up in the mornin'
Feel so good to have you by my side
Because of love, I know we're together
Because of love, I know that you're there
Because of love, I know that I need ya
Because of love, I know you care
No one's gonna treat you baby
No one's gonna treat you baby
No one's gonna treat you baby like I do
I know, I know...
