

Jay Delano, My Angel

You are my angel, you are my love
You came from heaven into my life
Oh girl I'm lovin' you for the way you are baby
My God you're so unique you know drive me crazy
I love the way you walk, when you talk when you move and when you speak
You make my life complete, girl you are the one I need
I'll do anything yes I'll do...
And there ain't nothing that I wouldn't do for you...
Baby I can't describe in words how you make me feel
Please stay the way you are because you know that you're keepin' it real
I really wanna be your only man if someone talks sheet I don't care
About what people have to say, I love you anyway
I'll do anything yes I'll do
And there ain't nothing that I wouldn't do for you...
Couse you know I love you baby
Anything that you ask I will do
Oh yeah...
