

Jay-Jay Johanson, Tell Me When The Party's Over

We move closer and closer
Without a sound
Playing games with emotions
That work is done
Though time runs faster and faster
We linger on

Tell me when the party's over
Call me when the music stops
When your champagne glass is empty
I will come and pick you up

Tell me when the party's over
Call me when the lights are out
When everybody's left the building
I'll be 'round

Trying harder and harder
When things goes wrong
Constantly in confusion
Burning so strong

Changing plans with each other
When days are long

Tell me when the party's over
Call me when the music stops
When your champagne glass is empty
I will come and pick you up

Tell me when the party's over
Call me when the lights are out
When everybody's left the building
I'll be 'round

Not even teardrops can tear us apart
No, not even teardrops can tear us apart

Tell me when the party's over
Call me when the music stops
When your champagne glass is empty
I will come and pick you up

Tell me when the party's over
Call me when the lights are out
When everybody's left the building
I'll be 'round
