

# Jay Sean, City Girl

[verse 1:]

It's the same train, it's the same time girl,  
Every morning on the central line girl,  
Look at you, you look at me from a far (Baby I)  
Gotta say I fantasize each day,  
Think about it with my mind on replay,  
But I can help if I just came up to talk,

[Chorus:]

This time it's there, I won't pass,  
I give ten, I won't less,  
Hey City Girl, before you go your way,  
Hey City Girl, Girl I just get your name,  
Hey City Girl, we can hang out some day,  
Hey City Girl (baby) (hey city girl),

[verse 2:]

Girl I'm feeling that girl tonight,  
Have you ever had city girl style and,  
With a ponytail that turns me on (so fine)  
In the winter you'll be rocking still toes (toes)  
In the summer it's the open toes (toes)  
Girl I watch you the whole year long,

[chorus]

[verse 3:]

You still the same my same in front of you try not to stare (stare),  
Got that Starbucks in your hand and i-pod in your ear,  
The metro's on your lap but I can tell it's where it's too,  
But you ain't ready cos I caught you watching me too,  
So now

[chorus x2]
