

# Jay Sean, I Just Wanna Love Ya

Woah Woah

It's such a shame that my girl  
She just ain't giving me anything and everything  
She don't know the kinda man that I am  
Does she really give a damn?

Coz she don't treat me like you  
Always out, I'm the last thing on her mind  
Ain't no good for me

Tell me baby whatcha gonna do for me  
I know I really shouldn't but I feel justified  
My lady she ain't doing me right  
Don't you know that

Everytime I see you girl I feel satisfied  
Coz you're so good to me  
And that is why I want you here with me  
Ohhh woahh

I just wanna love ya  
I can hardly wait to be around ya girl  
I just want you into my world  
I just want you in my world  
I just want to hold you  
All I really want is just to be with you girl  
I want you to be my girl

She just can't understand  
That a man needs much more than she's giving him  
Never know where she's at, but in fact  
No one just can put up with that  
See I need someone like you  
Who will do all the things that she won't do  
You're just what I need

Can't stay with her, I just gotta leave  
I know I really shouldn't but I (Oh yeah) feel justified  
My lady she ain't doing me right  
So why don't you

Caress me with your honey tonight  
To satisfy my own curiosity  
So c'mon girl you gotta be with me  
Oh!

I just wanna love ya  
I can hardly wait to be around ya girl  
I just want you into my world  
I just want you in my world (want you in my world...)  
I just want to hold you

All I really want is just to be with you girl  
I want you to be my girl  
Baby... baby... baby...

Oh yeah

I just wanna love ya  
I can hardly wait to be around ya girl  
I just want you into my world  
I just want you in my world (I just wanna be with you..)  
I just want to hold you

All I really want is just to be with you girl (well I can't..)  
I want you to be my girl (well I can't...)

Love you...

There are so many ways I can show you (oh so many ways...)  
I'll take you to a place somewhere for you (somewhere for you...)  
You'll soon discover (you'll soon discover...)

I just want to love you  
So c'mon let me love ya Oh

I just wanna love ya  
I can hardly wait to be around ya girl (I just want to hold you)  
Just walk into my world  
I just wanna love ya girl

I just want to hold you  
All I really want is just to be with you girl  
I want you to be my girl  
So leave your man at home  
And we can get it on  
I'll leave my girl at home  
I just wanna...I just wanna love you  
I just wanna...I just wanna hold you  
I just wanna...I just want to kiss you girl  
I just wanna... I just wanna hold you  
Oh yeah  
Just wanna love you  
I just wanna hold you  
I just wanna kiss you girl  
I just want to hold you girl
