

Jay Sean, Slip Away

I guess we never realized
Just how difficult this would be
And you're sick of all the white lies
And the secarum(?) they used with me
You said your family would never take me as I am
And there's nothing we can do to make them understand

My Forbidden Love
Girl, that's what you are
I won't give you up
When we've come this far
But forbidden love
In the eyes of those who don't see
We are who we are
Why won't they let us be

How can we let go
And give it up like this
There's gotta be another way
We gotta be strong
And together we'll fight this
I won't let you slip away [x2]
