

# Jaydee Bixby, Love Is

Five days on the road on copper  
Just to get back home to you  
Five days listenin'  
To Wailin' Willie  
And all that stuff they call  
One call was all it took  
Hello was all  
You needed to say  
Five days on the road  
And ain't nothing  
Gonna get in my way  
Love is what makes a man do  
The things that he'd never do  
Love is what's driving me  
Back to you  
And every time I go  
I tell myself  
That I won't miss you  
But nothing out here feels  
As good as when I kiss you  
Every time I go  
No matter what the distance  
I gotta turn this rig  
Right back around  
Cause I ain't trying this  
Love is  
You know  
You're the kind of addiction  
That feels so good it hurts  
In spite of all the pain  
You caused me  
Letting go would be  
10 times worse  
95 miles an hour  
Ain't fast enough oh no  
I'm gonna hit the pedal  
And push this metal as hard  
As it can go  
Love is what makes a man do  
The things that he'd never do  
Love is what's driving me  
Back to you  
And every time I go  
I tell myself  
That I wont miss you  
But nothing out here feels  
As good as when I kiss you  
Every time I go  
No matter what the distance  
I gotta turn this rig  
Right back around  
Cause I ain't trying this  
Love is  
Love is what makes a man do  
The things that he'd never do  
Love is what's keeping you  
Under my skin  
Love is what keeps this man  
Headed on back to you  
Love is what's driving me  
Straight on through  
Every time I go  
I tell myself  
That I wont miss you

But nothing out here feels  
As good as when I kiss you  
Every time I go  
No matter what the distance  
I gotta turn this rig  
Right back around  
Cause I aint trying this  
Love is  
I'll tell you what  
Yeah, yeah  
I'm headed on back to you  
I'm drivin' straight  
On through  
Oh, yeah, love
